

I certainly hope the FCC does not diminish standards of states' "Do Not Call Law." Before adding my name and number to the list, I was receiving about 3 calls per NIGHT. Now I only receive a few a month. As far as I was concerned these unsolicited calls were harassment as they interrupted other phone calls, dinner, children's homework or SLEEP. Some calls were made as late as 9:30 p.m. and others would wake me one or two times in the afternoon if I was home sick. Please don't allow our lives to go back to that.

Thank you,  
Holly Walters
